

Remote React Native Developer

Ташкент, Узбекистан

Are you on the hunt for exciting new challenges that boost your professional growth? If you're an innovator by nature and a Remote Mobile Developer by trade with focus on React Native development, we'd love to hear from you! Read on to see if you'd be a good fit for the Scopic team of 250+ professionals from over 40 countries.

At Scopic, the virtual world is our home so this is a full-time remote position. Only apply if you're prepared for the zero-hour commute and the thought of collaborating with colleagues from around the globe excites you!

The skills and traits we're looking for:

- 3+ years professional experience in mobile software development (mainly with React Native)
- Strong React Native skills
- Experience using native development (Swift and Objective-C and Java)
- Willingness to learn and work with web development is a plus
- Strong English reading, writing, and speaking skills
- Bachelor's degree or higher
- Stable internet connection and home computer
- Dedication and discipline to work remotely from home

Down to business!

- Salary Range: Negotiable depending on your skills, experience and your performance during our recruiting process.
- This is an hourly paid position.
- Employees are paid monthly via wire transfer.
